

Capability Statement

About Us

Founded in 2016, ZenTek Consultants works with federal, state, and local government agencies to help them purchase, implement, and learn the architecture, engineering, and construction software they need to meet their mission. We provide a single point-of-contact for clients to buy, develop, and learn their most vital software systems. ZenTek Consultants strives to be your trusted technology partner, from initial needs through long-term support and training for staff.

Our Mission

Our mission is to help clients streamline their work processes. From preliminary planning through final implementation and training, ZenTek Consultants brings years of technical experience to help our partners and government agencies make the best use of the architecture, engineering, and construction technology they already own. We specialize in helping guide clients to the latest technology solutions they're going to need to perform at peak efficiency.

Our staff has decades of experience recommending, implementing, and configuring software and technology solutions. We use that experience to help our partners develop, customize, and implement the software and workflow processes they need.
